

REMARKS

Regarding the Examiner's reasons for allowance in the present application file, including the reasons most recently presented in the Notice of Allowance of November 29, 2007, applicants' note that certain elements listed by the Examiner (e.g., a host processor having an associated display) are not present in each claim characterized by the Examiner as having the certain elements. If the Examiner's position is that each claim must have each element referenced by the Examiner in presenting the reasons for allowance, the Examiner is respectfully requested to withdraw allowance and to present a new non-final office action formalizing such a position. Otherwise, the record will reflect that each claim has been allowed for a combination of elements actually recited therein.

With regard to the Examiner's highlighting of various particular claim elements in presenting reasons for allowance, applicants have not, in the present application file, asserted an argument of patentability that a particular claim element constitutes the sole basis for patentability of a claim out of the context of the remaining combination of elements in which it is presented.

Accordingly, in view of the above remarks, applicants believe the present application to be in condition for allowance and respectfully request passage to allowance of the application.

If the Examiner believes that contact with applicants' attorney would be advantageous toward the disposition of this case, the Examiner is herein requested to call applicants' representative at the phone number listed below.

The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to deposit Account No. 50-0289.

Dated: February 29, 2008

Respectfully submitted,

By MS S Blasiak
